ASSOCIATION OF PEDESTRIAN & BICYCLE PROFESSIONALS

Expertise for Active Transportation

The Association of Pedestrian and Bicycle Professionals (APBP) is a community of practitioners working to create more walkable, bikeable communities and places. We support the professional development of about 1,100 members who work in the fields of transportation planning and engineering, urban design and planning, public health and active living.

The value your employees and colleagues would gain by joining APBP includes the **peer knowledge sharing** we provide through APBP's online community forum, local chapters and mentorship, **advanced technical expertise** through monthly webinars and our biennial Conference, and the **guidance and support** from formal policy statements on topics relevant to your work.

APBP supports the professional development of our members who are local, regional and state/provincial level bicycle and pedestrian coordinators, consultants in community planning and design, advocates, those interested in promoting active transportation, and much more.

Please consider supporting your colleagues in their professional development goals by providing them a membership in APBP. We offer several annual membership options.

- Young Professional: $60
- Advocate membership: $95
- Professional membership: $130 for public sector; $145 for private sector
- Group membership discount: 20% discount on annual membership dues when five or more people from one organization join APBP.
- In addition, APBP offers a discount of 50% for those members who identify as Black, Indigenous, people of color (BIPOC) or as a person with a disability.

If your company or organization provides financial assistance to support professional memberships or tuition reimbursement, we encourage you to explore APBP's membership benefits as a cost-effective investment in your staff's professional growth and development.

The included flyer outlines the benefits that your colleagues will gain by joining APBP. The expertise and creativity of professionals such as your colleagues is an important contribution to a thriving community at APBP. Lastly, an APBP membership is an opportunity for your organization to gain visibility in the field while contributing to and advancing the profession. **We urge you to provide APBP membership for your colleagues and employees.**

Kindest Regards,

Association of Pedestrian and Bicycle Professionals
